1st Annual Workshop of the Recosy Project

EURATOM, EC FP7, Collaborative Project

10th - 12th February 2009
Barcelona
Spain

AMPHOS²¹

Scientific and Strategic Environmental Consulting

General Information

The 1st Annual Workshop of the Collaborative Project **RECOSY** will be held in **Barcelona**, 10th to 12th February 2009, hosted by Amphos21.

The workshop is held within the context of CP RECOSY. The 32 project Partners of Recosy include the key European Research Institutes and Universities from 13 EURATOM signatory states, Russia and one European Joint Research Centre. In addition there are Associated Groups to the project, participating in the meeting and the joint project program.

A specific **Topical Session** will be held on "**Electrochemical techniques for Redox state determination**". At this 1st AWS an overview will be given on optical methods, as well.

This topical session of the 1st AWS thus combines:

- (i) Focusing on an area where many participants have in depth experience, and
- (ii) Informing the participants with a generally limited experience on optical methods about such techniques.

Objectives

Provide for discussion, documentation (proceedings) and future planning on all topics related to the Collaborative Project, both within the project and with a broader interested community.
